-  Chennai, Tamilnadu
-  Raashidcodes

TECHNICAL SKILLS

- Languages: Java, Python, C++, Emb C
- Frontend: React.js, HTML, CSS, JavaScript
- Backend: Node.js, Express.js
- Database: MySQL, MongoDB
- AI/ML: Scikit-learn, OpenCV, NLP, MediaPipe
- Tools: Git, GitHub, Figma, Adobe Premiere Pro, Jenkins, Selenium
- Concepts: Data Structures & Algorithms, OOP, REST APIs, Agile Methodologies, DevOps

CERTIFICATIONS

- Full Stack Web Development - Apna College (Virtual) | May 2024 - Aug 2024
- Real-Time AI Image Processing | Jan 2026

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Tamil (Fluent)
- Urdu(Fluent)
- French(Basics)

RAASHID AHMED

SOFTWARE ENGINEERING STUDENT

PROFILE

Software Engineering student with experience in full-stack development, AI/ML, and Agile/DevOps workflows. Built 6+ projects including fraud detection, NLP systems, and real-time computer vision applications. Skilled in Java, REST API development, and building scalable, user-centric solutions.

EXPERIENCE

- TimeSlotter (Full-Stack Developer Intern)

DECEMBER 2024

 - Developed responsive web interfaces using React.js, improving UI performance and usability
 - Worked in an Agile development environment with iterative improvements and team collaboration
 - Integrated frontend with backend APIs ensuring efficient data flow
- KalkiNI(Social Media Managing Intern)

JULY 2023

 - Executed social media campaigns to boost engagement and reach.
 - Content creation using Adobe Premiere Pro and DaVinci Resolve.
 - Achieved significant growth in social media followers.
- InsideFPV(Business Analyst tIntern)

SEPTEMBER 2023

 - Identified inefficiencies and designed solutions to processes.
 - Analyzed data to provide actionable insights for decision-making.
 - Enhanced analytical and problem-solving skills in a dynamic environment.

ACADEMIC QUALIFICATION

- Bachelor and Master of Technology in Software Engineering (DualDegree - 5years)

2023 - 2028

 - VELLORE INSTITUE OF TECHNOLOGY, VELLORE
 - IN SEMESTER 6
 - CGPA - 8.02
- AISSCE(XII)

2020 - 2022

 - ASAN MEMORIAL SENIOR SECONDARY SCHOOL CHENNAI-6
- PERCENTAGE: 87%

PROJECTS

- Full-Stack Railway Reservation System (React.js, Node.js, MySQL,MongoDB)

 - Built an end-to-end booking system with authentication and database integration
 - Designed REST APIs and implemented real-time seat availability logic
 - Developed responsive UI to enhance user experience and accessibility
- Credit Card Fraud Detection System (Python, Scikit-learn)

 - Developed a machine learning model to detect fraudulent transactions
 - Performed data preprocessing and feature engineering on large datasets
 - Improved prediction accuracy using classification algorithms
- Human Burnout Detection System (Python, ML Models)

 - Designed an ML-based system to predict burnout levels using behavioral data
 - Applied classification techniques to analyze stress patterns
- Facial & Hand Gesture Recognition System (Python, OpenCV, MediaPipe)

 - Implemented real-time gesture recognition using computer vision techniques
 - Enabled gesture-based interaction through image processing models
- Mental Health Counselling System (Python, NLP)

 - Built an NLP-based system for analyzing user input and providing responses
 - Applied text processing techniques for sentiment and intent detection
- IoT-Based Smart Parking System (IoT, Embedded Systems)

 - Designed a smart parking solution using sensors for real-time slot detection
 - Improved parking efficiency through automated monitoring
- Instagram Clone with Smart Recommendation Engine (React.js, Node.js, MongoDB)

 - Built a full-stack Instagram clone with authentication, posts, and follow system
 - Implemented Graph Theory and Neural Network-based recommendation features with responsive UI and REST APIs
