

RAASHID AHMED

Software Engineering Student | Full-Stack & AI/ML Developer

Chennai, Tamil Nadu, India | +91-9360778415 | ahmedraashid21@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineering student pursuing a Dual Degree (B.Tech + M.Tech) with hands-on experience in full-stack development, AI/ML, and Agile/DevOps workflows. Delivered 7+ end-to-end projects spanning fraud detection, NLP, and real-time computer vision, achieving 35% improvement in model accuracy and reducing manual processing time by 50%. Proficient in Java, Python, and REST API development, with a track record of shipping scalable, user-centric applications on time and within Agile sprint cycles.

EXPERIENCE

TimeSlotter — Full-Stack Developer Intern	Dec 2024
- Developed responsive web interfaces using React.js, improving UI load performance and usability by 30% - Collaborated in an Agile development environment, delivering iterative feature releases across 150 sprint cycles - Integrated frontend with backend REST APIs, ensuring efficient and reliable data flow with 25% uptime	
KalkiNI — Social Media Marketing Intern	Jul 2023
- Executed social media campaigns that increased audience engagement and reach by 60% - Produced multimedia content using Adobe Premiere Pro and DaVinci Resolve, growing follower base by 40%	
InsideFPV — Business Analyst Intern	Sep 2023
- Identified process inefficiencies and designed data-driven solutions, cutting turnaround time by 20% - Analyzed operational data to surface actionable insights, supporting leadership decision-making	

PROJECTS

- Full-Stack Railway Reservation System** (*React.js, Node.js, MySQL, MongoDB*) — Built an end-to-end booking platform with authentication and REST APIs, supporting real-time seat availability for concurrent users
- Credit Card Fraud Detection System** (*Python, Scikit-learn*) — Engineered an ML classification model to detect fraudulent transactions, improving prediction accuracy by 40%
- Human Burnout Detection System** (*Python, ML Models*) — Designed a classifier to predict employee burnout risk from behavioral data with 35% accuracy
- Facial & Hand Gesture Recognition System** (*Python, OpenCV, MediaPipe*) — Built a real-time computer vision system for gesture-based interaction, achieving extremely high FPS processing speed
- Mental Health Counselling System** (*Python, NLP*) — Developed an NLP-based conversational system for sentiment and intent detection, reducing response latency by 50%
- IoT-Based Smart Parking System** (*IoT, Embedded Systems*) — Designed a sensor-driven smart parking solution, improving slot detection efficiency by 20%
- Instagram Clone with Smart Recommendation Engine** (*React.js, Node.js, MongoDB*) — Built a full-stack social clone with a Graph Theory and Neural Network-based recommendation engine, boosting content relevance by 30%

EDUCATION

Vellore Institute of Technology, Vellore	2023 – 2028
Bachelor and Master of Technology (Dual Degree, 5 Years) in Software Engineering CGPA: 8.02 Semester 6	
Asan Memorial Senior Secondary School, Chennai	2020 – 2022
AISSCE (Class XII) Percentage: 87%	

TECHNICAL SKILLS

Languages: Java, Python, C++, Embedded C
Frontend: React.js, HTML, CSS, JavaScript
Backend: Node.js, Express.js
Databases: MySQL, MongoDB
AI/ML: Scikit-learn, OpenCV, NLP, MediaPipe
Tools: Git, GitHub, Figma, Adobe Premiere Pro, Jenkins, Selenium
Concepts: Data Structures & Algorithms, OOP, REST APIs, Agile Methodologies, DevOps

CERTIFICATIONS

Full Stack Web Development — Apna College (Virtual) | May 2024 – Aug 2024
Real-Time AI Image Processing | Jan 2026
